EDUCATION

Maulana Abul Kalam Azad University of Technology (Formerly WBUT) Haringhata, West Bengal
Bachelor of Technology in Computer Science and Engineering | 9.40 CGPA Nov. 2020 – June 2024

EXPERIENCE

Software Engineer 1

Kolkata, West Bengal, India

HashedIn by Deloitte

Jan. 2025 – Present

- Developed an HR query chatbot leveraging RAG and Langchain agents, successfully automating HR query resolution and reducing manual effort by 80%
- Enhanced information retrieval accuracy and relevance by 30% through the integration of advanced RAG strategies like semantic chunking and query reranking.
- Built the solution using Python with FastAPI for the API layer, Langchain/Langgraph for agentic workflows, and pgvector for similarity search on HR knowledge data.

Software Engineer Intern

Bengaluru, Karnataka, India

HashedIn by Deloitte

Oct. 2024 – Jan. 2025

- Developed an AI-powered evaluation platform that automates technical assignment assessments and viva voce examinations for trainees, reducing evaluation time from 2 hours to 20 minutes. (Tech used:- Python, FastAPI, Langchain, React.js)
- Gained hands-on experience with diverse tech stacks, including Java + Spring Boot, React, and Python + FastAPI + Langchain.

RELEVANT COURSEWORK

- Data Structures and Algorithms | Design and Analysis of Algorithms | Object Oriented Programming
- Database Management Systems | Computer Networks | Operating Systems

ACHIEVEMENTS

- Secured 513th rank in TCS CodeVita out of 444K+ participants from 94 countries.
- Earned a Knight badge on LeetCode, i.e becoming a part of Top 4% out of 300k+ candidates.
- Solved 700+ problems on Leetcode (140+ easy, 350+ medium, 60+ hard).
- Achieved global ranking of 188 in Codechef February Cook-Off 2023 (Div 2) contest.
- Secured a spot among the top 15 participants in the TextBase Titans Hackathon.
- Achieved all India rank 214 out of 1 lakh+ participants in Codekaze-Sep'23.
- Achieved a 5 star rating in problem solving on HackerRank.

SKILLS

Languages : C++ (with STL), JavaScript, HTML, CSS, SQL, Python

Frameworks & Libraries : React.js, FastAPI, lanLangChain, langgraph, AutoGen

Databases : MySQL, PostgreSQL

Developer Tools : Git, VS Code

PROJECTS

Task Scheduler | HTML, CSS, JavaScript, Vue.js, PHP, Laravel, MySQL

[Source Code \(Front-end\)](#) | [Source Code \(Back-end\)](#)

- Developed a task scheduler web application using Vue.js for frontend, Laravel for backend, and MySQL for database management.
- Implemented lazy loading to reduce the initial loading time.
- Implemented appropriate user authentication and authorization features to ensure secure access to the application.

Job Portal | HTML, CSS, PHP, Laravel, MySQL

[Source Code \(Front-end+Back-end\)](#)

- Developed a job portal, using Laravel for the backend, Laravel's Blade templating engine along with HTML and CSS for the frontend and MySQL for database management.
- Implemented features such as user authentication, job search functionality, job posting and application tracking within the web application.
